Med. 54-41-3

Dear Mr Vedavyasacharya,

With reference to the enclosed advertisement asking doctors of various degrees to volunteer for War service, I have been told that it is no use for Mysore doctors to apply because the medical degrees of the Mysore University have not yet been recognized by the Indian Medical Council.

I should be much obliged if you would kindly let me know whether this is the case, and if it is, whether any representations have been made to the Government of India asking whether in view of the emergency caused by the War this regulation cannot be relaxed. I believe that it was relaxed in the last War and that in the present War the need for doctors is so great that even medical students are being sent out by some governments to fill their places.

I cannot help feeling that there is a great opportunity here for some of the unemployed medical men in Mysore, and that, if they are really barred in the way that I have been told, it is worth while making a big effort to get the bar removed.

Yours sincerely,

P T O

M. Anantha Rao. B.A. M.B.B.S.,(Mysore)
Registered Medical Practitioner,
R A I C H U R.

To

The I.M.S.Officer,
Commission Office,
New Delhi.

Dear Sir,

The present situation of the country has made me feel that I should render myxxx humble services to you if an oppurtunity be given.

I graduated myself from the Mysore University four years back, servve as a House Surgeon in the Victoria Hospital, and in the Minto Ophthalmic Hospital, Bangalore,and at present practising in this town for over two and a half years. It may not be out of place if I should add that I command a good practice amountig to over Rs500/ a month

Mysore University, young as it is, suffers from the non-recognition from the All India Medical Council. I feel that recognition is only a question of time wheras service to the country is the hour of need. Considering the good records made by the graduates of this University in the foreign Universities , I pray thatwe should be entertained on the same basis as of the other graduates of the recognised Universities making no distinction amongst us either now or in future. I am fully confident that we Mysoreans fall no short in work or efficiency to others. It is up to you Sir, either to make use of our offer or leave us to be rest content to servve the suffering humanity in our own places.

I shall be highly obliged to you for a favourable reply,

Thanking you,

your most obediently,

This question should be taken up & a representation made that our local graduates maybe taken as I.M.S officers

22/8/41 by

From,

N. Anantha Rao. B.A., M.B.B.S., (Mysore)
Medical Practitioner,
Raichur.

To,

Mr. J. Imam,
Member of The Executive Council, of Mysore.
Bangalore City.

Dear Sir,

The enclosed application will show you the exact status of the Mysore Medical Graduates. At a time when the British Government are actually hunting after Medical Graduates of other Provinces, our applications are thrown down on the basis of nonrecognition of the Mysore Meidcal College by the All India Medical Council. Needless to say that we are unable to claim equality with the other graduates inspite of taking an equal training. We do not know whom to blame, either blame ourselves in joining the college without any discretion or our poor innocent Parents who had no idea of recognition etc, or the college in not getting a recognition as yet.

On a casual conversation with many of my friends I feel that there are many more ready to join the Military if given equal status with others. I have sent this application to know what reaction it will have, and if valued to give an impetous for others. I feel that an effort on the part of your Government in this connection may prove fruitful. This may be a stepping stone for the recognition of the College also.

I am confident that you as a popular Minister, will do your best in helping the Medical Graduates, and make your name by getting the college recognised by The All India Medical Council, for which act of kindness the past, present, and the future students of the college will be ever grateful to you. I hope that this humble application of mine will be considered with due merit and favourably replied I shall be glad to have an interview with you in the matter.

Thanking you Sir,

Yours obediently,

N. Anantha Rao

The "Tainadu", 29-8-1941

3) In a letter to the "Tainadu", Dr. N. Ananth[redacted] writes that the Emergency Medical Commission has not considered the application of the Medical graduates from Mysore on the ground that the Mysore medical degrees are not recognised by the All-India Medical Council. He adds that Madras University has decided to hold a special examination for the final M.B.B.S. students in order to enable them to qualify themselves for the commission. He concludes by urging the Government of Mysore to take necessary action and see that the Mysore Medical graduates are given their rightful place by the Medical Commission.

Unemployment among Mysore University Medical Graduates.

I am desired to invite reference to the severe unemployment that has been prevailing among the holders of the University Degree of M.B.& B.S. of the Mysore University for some years together and to the difficulties that they have been encountering in securing employment outside this State owing to the non-recognition of the M.B. & B.S. Degree of this University by the Indian Medical Council. This non-recognition, from whatever cause it has come about, is still further adversely affecting the prospects of the Mysore University Medical graduates, in the matter of securing Emergency Commissions in the I.M.S. From authentic information received from Madras, it is understood they are there preparing for Examinations so that candidates may be enabled to be recruited to the I.M.S. and granted Emergency Commissions. It is also understood that the Medical Degrees granted by the Andhra University, which like our Degrees had not been for long recognised by the Indian Medical Council, have been recognised recently and that the Andhra University Medical graduates are now freely recruited to the I.M.S. and granted Emergency Commissions. There is no need to labour the point that the curriculam of Medical

Bangalore City, 17th Sept. *194* 1

Medical Studies prescribed by and carried out by the Mysore University are on a par with those provided for by the other Indian Universities, while the equipment provided by the Mysore University cannot be said to be either deficient or not equal to that of any other Indian University that can be named in this connection. The question of practical training has been, it is understood, largely solved now, especially in the matter of Gynaecology and Obstetrics. Large and magnificently worked Maternity Hospitals have been built in the State and afford ample opportunities for practical training of an all round character to students and practitioners in these and kindred departments of medicaine and surgery. In these circumstances, it is the considered opinion of the Committee of the Chamber that the matter should be taken up by the Government so that suitable representations might be made by them with a view to lifting without delay the bar that has been placed against the local University Medical graduates, so that their recruitment to medical posts outside the State and to the I.M.S. Emergency Commissions may be made feasible and their employment outside the State secured. It is needless to state that there is considerable public feeling in the matter and it seems necessary that very special and very urgent action is needed in regard to it so that youngmen, fit for service abroad, may not miss their chances, especially in these days when their services are likely to be appreciated at their real worth, with advantage both to themselves and to the country.

2. I am to add that the question referred to above is one not affecting solely the interests of the medical unemployed. It raises a question of principle as well, in as much as action that is likely to favour one set of candidates should be made

made applicable to all others equally qualified from the educational point of view. It cannot be said that Mysore Medical graduates lag behind either in physical bearing, training, knowledge, equipment or indeed in anything that can at all bear on their capacity to treat and tend patients committed to their care and attention.

OFFICE OF THE SENIOR SURGEON IN MYSORE,

D. O. No. C 3568-4 *Bangalore, dated* 9th August 1941

Enc. 3.

My dear Mr. Vedavyasacharya,

As requested in your D.O. letter No. G. 1450/Med. dated the 5th instant, I am enclosing a short note on the question of recognition of the M.B.B.S. Degree of Mysore by the Indian Medical Council.

Yours sincerely
Monteiro

V. Vedavyasacharya, Esq., B.A.,
Secretary to Government,
Development Department,
Bangalore.

Monteiro

Offg. SENIOR SURGEON.

ote on the question of the recognition of the M.B.B.S., Degree of Mysore, for purposes of employment and registration in British India.

It is a fact that the Medical Graduates of the Mysore University are not given emergency commission in the Indian Medical Service because the M.B.B.S., degree has not been recognised by the Indian Medical Council as a registrable qualification. In this connection, it may be stated that the question of getting our M.B.B.S., degree recognised by the Indian Medical Council was moved by my predecessor in office in October 1940 and a copy of letter addressed by him to the Principal, Medical College, Mysore and a copy of his reply thereto, are enclosed. It will be seen that the University authorities apprehend that an inspection of our College by the Indian Medical Council at present may not bring the recognition of the qualification but may result in a future inspection being put off indefinitely. The question is perhaps still engaging the attention of the University authorities. I am not aware of what further action our University has taken for getting our degrees recognised.

Offg. SENIOR SURGEON.

Copy of D.O. letter No. C. 1201-1 dated the 24th October 1940 from the Senior Surgeon in Mysore, Bangalore, to the Principal, Medical College, Mysore.

With reference to your D.O. letter No. 694 dated the 23rd instant, I wish to inform you that when General Jolly was here, I gave copies of the University Rules, lists of Professors with qualifications, details of hospitals and clinical material available and other connected matters of information. When I was in Bombay, I discussed the matter of this recognition with Col. Bhatia, Dr. Jeevarj Mehta and also with Sir Mangaldas Mehta all of whom are members of the Indian Medical Council. I wished to have a talk with Dr. Lakshmanaswami Madaliar when I was in Madras, a month ago, but found he was away from station.

I found that every body was inclined to treat our case in a generous and sympathetic manner as this is the only instance of an Indian State University Medical Faculty seeking recognition from the Indian Medical Council, which is created by a statute meant for British India. All of them were of the opinion that we should formally seek recognition and welcome any inspection that is usually arranged for. Without this process, there seems to be no way of getting over the difficulty and relieving the handicaps to which our graduates are at present subjected to in British India, in the matter of War appointments and Post Graduate Studies.

I personally feel that we have to do this some day or other and I think the earlier we do it, the better. It is possible that our Degrees may be either absolutely or conditionally recognised. If not, the deficiencies that ought to be rectified will be pointed out by a body of standing and this will, I believe, help us towards further improvement, if any, considered necessary.

'C o p y.'

Offg. SENIOR SURGEON.

Copy of letter No. 719 dated the 25th October 1940 from the Principal, Medical College, Mysore, to the Senior Surgeon in Mysore, Bangalore.

In reply to your letter No.C. 1201-1 dated the 24th instant I understand that the Indian Medical Council does not give conditional recognition. We are starting - extensivebuilding additions to the hospital which will bring it into line with teaching hospital requirements. By next year we should have an acceptable out-patient block, an eye hospital embodying adequate X-Ray rooms and an acceptable operating theatre plant and I feel it would be advisable to wait until we can present all this for the inspection of the Council.

If however you think that an invitation to inspect our College and hospital might be made now, showing the definite plans under way and we are not likely to be set back for a period of years before being permitted to invite inspection again, it might be worth the risk and the University could send a formal invitation. If we could be sure of having examiners who would sympathetically view our case and are acquainted w ith our aims and achievements, well and good. Should others of different attitude be sent we shall only be out of luck.

'C o p y.'

Offg. SENIOR SURGEON.

OFFICE OF THE SENIOR SURGEON IN MYSORE,

Bangalore, dated 18 : 8 : 1941

D. O. No. C 3565-6

Enc.

Dear Mr. Vedavyasacharya,

In continuation of my letter No. C.3565-5 dated 11-8-1941, re: the non-recognition of our medical degrees by the Indian Medical Council, I wish to inform you that the degree of M.B. & B.S. of our University has been recognised by the following Medical Councils in India:-

1. The Bombay Medical Council. Government Notification No. 814 dated 20th May 1932.

The Bengal Medical Council. Government Notification No. 2512-Medl. dated 15th August 1931,

and

3. The Madras Medical Council.

As these three Medical Councils whose jurisdiction covers the major part of British India have recognised our degrees as registrable qualifications, I would suggest that suitable action may be taken with through the Army Authorities for the recognition of our medical graduates for enlistment in the Emergency Commissions of the I.M.S. at least as a temporary measure, pending the recognition of the University by the Indian Medical Council.

Yours sincerely,

V. Vedavyasacharya, Esq., B.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department,
Bangalore.

TO

THE SECRETARY

TO THE HON'BLE THE RESIDENT

IN MYSORE, BANGALORE.

S i r,

I am directed to address you on the subject of the recognition of the Medical degrees of the Mysore University for the grant of Emergency Commission in the I.M.S.

2. The graduates of this University are not being given the Emergency Commission in the I.M.S. at present on the ground that the M.B.B.S. degree of this University has not been recognised by the Indian Medical Council as a registrable qualification. The M.B.B.S. degree of this University has been recognised by the Medical Councils of Madras, Bombay and Bengal for purposes of registration in the respective provinces. The Royal College of Surgeons have also recognised the degree as a sufficient qualification for taking the primary examination leading to F.R.C.S. The question of securing recognition of our medical degrees by the Indian Medical Council is engaging attention for ~~the~~ past some time; and the matter is under correspondence. It is possible, however, that it will take some more time before ~~the~~ recognition is secured from the Indian Medical Council for the M.B.B.S. degree of this University.

3. The Senior Surgeon ~~with the Government of~~ Mysore has, in the circumstances

recommended that the Medical graduates of this University may be given recognition ror purposes of enlistment in the Emergency Commission of the I.M.S. at least as a temporary measure pending the recognition of the M.B.B.S. of this University by the Indian Medical Council.

4. His Highness's Government will be grateful if the Hon'ble the Resident will ~~be so good as to~~ use his good offices with the Government of India ~~(in the quarters concerned)~~ and secure recognition for the M.B.B.S. degrees of this University for the grant of Emergency Commission in the I.M.S. during the period of the War.

Dear Sir,

I am desired to enclose for your information copy of a letter from Sir Charles Todhunter regarding grant of Emergency Commission in the I.M.S. for medical graduates of the Mysore University. I am to state that the Government of India have been separately addressed through the Residency in the matter. Copy of the letter to the Secretary to the Hon'ble the Resident has been forwarded to you with my Memo No. G.2840 dated the 18th September 1941.

It is understood that owing to the requirements of the Army Department they are also recruiting Sub Assistant Surgeons and persons who have the qualifications of Sub Assistant Surgeons for junior Medical charges as an emergency measure. I am to enquire whether this question has not been considered and whether it is not desirable for us to make suitable proposals for the acceptance of the Government of India. The matter may kindly be treated as urgent.

Yours sincerely,

GEN. & REV. SECTT * 11 OCT. 1941 * GEN. MIS. BRANCH.

Dear Mr. Vedavyasacharya,

I am in receipt of your letter No.G. 2839/Med. dated the 18th September 1941 intimating that Government of India have been addressed for the recruitment of our Medical Graduates for the Emergency Commission.

As regards medical men with the qualifications of Sub Assistant Surgeons, there is no difficulty in regard to their recruitment as many of our L.M.Ps have already joined the Emergency Commission, and Government have been pleased to order that in the case of those already in service, they will be allowed to retain their lien on their posts here during their employment in the Emergency Commission. One of our Sub Assistant Surgeons in service, --Mr.K.Hussain Sheriff-- was very recently entertained in the Emergency commission. About half a dozen of our unemployed L.M.Ps have also obtained temporary appointments in the subordinate branches of the Indian Medical Service.

It is only our Medical Graduates (M.B.B.S.) that are unable to find employment in the Emergency Commission for the reasons already explained, and it was in respect of these that I requested the Government to move the Government of India to relax the existing regulation, so that the Mysore M.B.B.S. degree may be temporarily recognised by the Military Authorities for employment in Emergency Commission.

Yours sincerely,

Myson

No. G.1017 *Bangalore, Dated* 4 December, 1941.

FROM

The *Secretary to the Government of His Highness the Mahdraja of Mysore.*
Development Department

To

The Secretary to the Hon'ble the Resident in Mysore,
Bangalore.

S i r,

Subject:- Recruitment for the Indian Army of Medical men from Indian States.

In inviting reference to this office letter No.Pol.420/Med. 54-41-2 dated 5th September 1941 and the subsequent letter No.Camp G.217/Med.54-41-8 dated 11th October 1941 on the above subject, I am directed to state that a communication has been received from the Mysore Medical Association requesting for information regarding (1) the conditions under which the officers of this Government can take up Emergency Commissions in the I.M.S. and (2) the question of their pension and insurance etc., and to request you to be so good as to state the stage at which the question stands at present.

I have the honour to be,

S i r,

Your most obedient servant,

for Secretary to Government
Development Department

NDA.2
5-12-41.

The reply to this communication should be addressed to the Secretary to the Resident in Mysore, Bangalore, by designation and not by name.

CONFIDENTIAL.

No.R.F.292-41/G&A.

3215-
G.m.

FROM

THE SECRETARY TO THE HON'BLE THE RESIDENT IN MYSORE.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

Dated Bangalore, the 8th Decr. *1941.*

Recognition of the M.B.B.S.degree of the Mysore University for grant of Emergency Commissions in the Indian Medical Service.

SIR,

I am directed to refer to your letter No.Pol.420/Medl. 54-41-3, dated the 5th September 1941, and to say that a candidate, in order to be eligible for appointment to the Indian Medical Service, must possess a medical qualification registered in Great Britain, etc., or an Indian medical qualification recognised under section 11(1) of the Indian Medical Council Act, 1933, i.e. included in the first schedule to the Act. The M.B.B.S. degree of the Mysore University, if recognised by the Medical Council of India, will be borne on the second schedule as the Indian Medical Council Act is confined to British India only. Thus the medical degrees of the Mysore University even after recognition by the Medical Council will not make its holders eligible for appointment to the Indian Medical Service.

2. I am however to add, for the information of the Government of Mysore, that the question of amending the terms and conditions of recruitment to Emergency Commission in the I.M.S. so as to qualify persons possessing a medical qualification recognised under section 12 of the Indian Medical Council Act, 1933, for the I.M.S. is under the consideration of the Government of India.

I have the honour to be,
Sir,
Your most obedient servant,

SECRETARY TO THE RESIDENT.

BY

CONFIDENTIAL.

The reply to this communication should be addressed to the Secretary to the Resident in Mysore, Bangalore, by designation and not by name.

No. R.F.292-41

FROM

THE SECRETARY TO THE HON'BLE THE RESIDENT IN MYSORE.

To

The Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

Dated Bangalore, the 10 Jany. *1942*

Recognition of the M.B.B.S. degree of the Mysore University for grant of Emergency Commissions in the Indian Medical Service.

SIR,

I am directed to refer to the correspondence ending with my letter No.R.F.292-41/G&A., dated the 8th December 1941, and to say that it is understood that, when the Mysore Medical Council approached the Medical Council of India in 1936 for the recognition of the Mysore M.B.B.S. degree, the matter was considered by the Executive Committee of the latter Council at its meeting held on the 13/14th August 1936. It was decided that, before recognition could be accorded, it would be necessary for Inspectors of the Medical Council of India to inspect the courses of study and examinations at the Mysore University. The Mysore Medical Council was informed accordingly. That Council replied that the question of inviting Inspectors would be considered after the extensions and improvements then in progress at the Medical College had been completed. It is understood that later the Mysore University authorities arranged with Lieut. Colonel G. T. Burke, I.M.S. (Retd.), the then Secretary of the Medical Council of India, for a private inspection after his retirment from the Council, but no further communication was received from the Government of Mysore.

2. In these circumstances, the Government of India regret that it is not possible to do anything towards the admission of medical graduates of the Mysore University to emergency

emergency commissions in the Indian Medical Service until their degree has been recognised by the Medical Council of India. I am therefore to suggest that the Government of Mysore might approach the Council again for its recognition.

I have the honour to be,
Sir,
Your most obedient servant,

SECRETARY TO THE RESIDENT.
